

# USMA Class of 1958 50 Years of Service

Over five years in the making, this 480-page hardcover book commemorates the 50th anniversary of the graduation of the USMA Class of 1958. From our cadet days to our retirement years, it chronicles the lives of the 573 members of our graduating class, as well as many of our classmates who did not graduate with us, but went on to serve in other ways. The book includes a brief Historical Overview of the class, a compelling collection of "War Stories & Remembrances" from classmates and family members, as well as personal biographies. It is a memento of lasting significance for class members, our families, and friends of the class — a thoughtful remembrance of who we are and what we contributed to the well-being of our nation
