This was the scene, the "Mad Pad," the habitat of the cool contingent of the Company. Under the guidance of Sfc's Myers and Evans, we showed the whole school how to "Set the Pace." And at the same time be second to none. We supplied more First Sergeants, more Dean's List men, and less giggins than any other platoon.

Smile for the man, "Checko."

The Neffers

3rd Greeted by the friendly smile and pencil of Sfc Neff and his famous "Gig Pad," we Third Platooners combined brains and brawn to capture the best platoon award for the first half-year. The year's many highlights included the upset of the Company flag football team by our men of C-10. Who can forget the unceasing hard work the "mighty Third" put into the many week-ends of raking leaves and standing inspections. "Mother Goose!" Do you follow me?
