

Reunion Pictures

Contributed by Mike Lyman
Sunday, 14 October 2007

We have a 20 Year Reunion photo gallery started and some of you have already started to upload pictures or send them to me to get them up. Keep them coming!

You can post the pictures yourself. Logon the website and upload them. When you first logon, there is a page with instructions and you will find upload instructions there.

Please resize the pictures before you post them. Smaller pictures work better with the site layout and are easier on anybody still on a dial-up connection. I use the Image Resize Power Toy from Microsoft to resize pictures and resize them to fit a 640x480 screen. That works fairly well with our site layout.
