

## FTP Help

If you have not done this recently (since the beginning of Sept. 2015) anyone needing FTP access, we need to do a quick configuration change and then you'll be able to FTP. Please email [feedback@west-point.org](mailto:feedback@west-point.org) Where is my directory?

Graduate directories are as follows: `/wporg/users/usma<classyear>/cullum/` example: `/wporg/users/usma1932/12345/` How Do I FTP? You will need a FTP program we have found to be easy to use (and it's free) is

WinSCP. <http://winscp.net/eng/download.php>

To download, click on the "Installation Package" link under WinSCP 5.5.1. (or most current) FTP to: `ftp.west-point.org` Port: 21 In your FTP program, you will be taken to your username

directory: `/wporg/users/usma<classyear>/<cullumnumber>/` Example: `/wporg/users/usma1932/wp12345`

\*\*To make your page viewable upon clicking your home page, you must title your first page "index.html" Unfortunately, WP-ORG does not have the resources to provide help

building HTML pages. We can, however, suggest a few HTML editors that have good online tutorials. HTML EDITORS?

A free good free visual editor is Page Breeze:

<http://www.pagebreeze.com/>

A youtube tutorial:

<http://www.youtube.com/watch?v=owrGgWkjHR0>

A paid program for a fee is CoffeeCup:

<http://www.coffeecup.com/html-editor/>

This is a tutorial for CoffeeCup:

<http://www.coffeecup.com/html-editor/help/tutorials/>

This page may also be of some help:

<http://howto.50webs.net/tutorial.php?id=001>

You will need an independent FTP program to FTP (transfer your web files) to our servers. Built in FTP programs that come with HTML Editors usually do not work on our servers.

We often suggest WinSCP:

<http://winscp.net/eng/index.php>

Another program is Filezilla,

<http://filezilla-project.org/>

Help for transferring files using FTP:

[http://www.west-point.org/service/ftp\\_help/](http://www.west-point.org/service/ftp_help/)

We allow almost any type of PHP, Perl, or other open-source software that runs on Linux/Apache/MySQL. Many of the WP-ORG pages have been done in JOOMLA! Want your own domain name?

Who can have a Virtual Web-Host at WP-ORG?

<http://www.west-point.org/service/virtual/>

There are no cancellation terms. We will host as long as WP-ORG is in business; you continue your obligation to WP-ORG and the domain-service provider (the one who gives you your domain)

We provide a 24/7 access.

Our connectivity is T1 speed.

We backup our systems

You will need to register your own domain in [www.gkg.net](http://www.gkg.net) (preferred)

Here is some information you will need:

One place you can purchase your domain is:

<http://www.GKG.net>

YOU are the legal entity

Administrative contact: You

Technical contact: wporgsysop

Billing contact: You

Our DNS information is:

WP-ORG Primary DNS:

NS1.WEST-POINT.ORG 206.127.30.81

WP-ORG Secondary DNS:

NS2.WEST-POINT.ORG 206.127.30.82

It will take a number of days for the domain to point to our servers. Additionally, we are not notified by some domain registry services (such as [gkg.net](http://www.gkg.net)) that we have a new domain, so the domain registrant is responsible for letting us know. Please notify [megan@west-point.org](mailto:megan@west-point.org). Following notice, it may take us a few days to get it set up on our end.

Contact us for further assistance: [feedback@west-point.org](mailto:feedback@west-point.org)
