

Services Provided

WP-ORG prides itself on using the expertise of our numerous volunteers, as well as our paid employees and consultants, to create solutions for the our community of USMA graduates, parents of USMA cadets and USNA midshipmen, and affinity groups that we support. Over the years, we have added capabilities as needed. The following highlights some of the things that are available. If you have any questions, please contact Dian Welle.

New Ideas?

Our goal is to help connect our community. Many of the services we provide have come from ideas passed on by graduates or parents. If you have an idea for a new service to graduates or parents that we may be able to provide through the volunteer programmers at WP-ORG, please let us know!
