The Sourcebook provides Cadet Parents a guide through the West Point experience. Inside you will find sections that outline what your cadet will go through each year at the Academy. There is also information on transportation, restaurants, lodging, and events to plan for. The Sourcebook will answer most of the questions cadet parents might have about West Point. If the answer to the question cannot be found in the book, references to websites or other pertinent sources are provided. The information has been compiled over 22 years by parents and other individuals with knowledge about life at West Point. It is a piece of West Point history with an indispensable collection of information no cadet parent should be without. The book is not an official publication of the United States Military Academy.
