THE UNITED STATES MILITARY ACADEMY AT WEST POINT
THE UNITED STATES NAVAL ACADEMY
THE UNITED STATES AIR FORCE ACADEMY
THE UNITED STATES COAST GUARD ACADEMY
THE UNITED STATES MERCHANT MARINE ACADEMY

Each of the Military Service Academies provides a rigorous and comprehensive education to its students, offering undergraduate degrees in many areas of study while training the to become professional officers of competence, character and compassion in the U.S. Military. While these institutions are analogous to traditional universities, cadets or midshipmen (the names used for these students) at these academies also receive extensive physical, military and leadership training. Most graduates are Congressional appointees. After graduating, each student moves directly into a career as an officer in one of the six branches of the U.S. Military.

The young women and men who have been selected to attend U.S. Service Academies experience intense academic, leadership and physical training requiring the highest commitment of time and dedication through four years at their respective institutions, which are ranked among the highest in the nation.

The year-round duty of cadets and midshipmen offers few opportunities for relaxation or the typical freedoms enjoyed by their peers at civilian colleges and universities. The All Academy Ball offers cadets and midshipmen the opportunity to commemorate this special time in their lives, along with alumni, friends, and family at home during their brief holiday leave.
