

Farewell Craig Albright

Our E-1 Classmate Lorin "Craig" Albright passed away on December 17, 2023. A Memorial Service for Craig was held at the West Point Old Cadet Chapel on Thursday, 13 May at 1:30 PM. He was preceded in death by his older brother Alan Keith. Craig is survived by Heather Margaret Albright, his wife of over 53 years; his youngest brother, Hugh Douglas; and by a number of Nieces and Nephews.

Craig was born in Medina, New York and graduated from Albion High School where he excelled on the football and wrestling teams, and was a member of the National Honor Society.

At West Point a plebe year shoulder injury truncated his football aspirations, but in addition to the slate of intramural sports, he was on the pistol team for two years, and participated in outdoor activities throughout his Academy time.

Upon graduation, Craig was commissioned into the Armour branch and completed both the Airborne and Ranger courses. He resigned in 1970 following an Armored Cavalry company command assignment along the Korean DMZ.

After active military service, Craig had a career with IBM starting with the Federal Systems Division. Heather also had an IBM career as a programmer/analyst. Their IBM path included contract support for government agencies with several years in the DC area working at Langley.

Craig also resumed interest in shooting sports and achieved both North Carolina state and national High Power Rifle recognition. This included tying a national individual record. His club also focused on safety and proficiency training for Boy Scouts and other young shooters. Craig was very active in that endeavor right up to the time of his passing.

Heather would obviously be happy to see and meet any Classmates who are able to join her, Craig's extended family, and friends at his West Point Memorial Service.

Strength & Drive,
Emory
