What about a photograph?

Each article is published with a photograph. Select one that represents how the graduate would have preferred to be remembered. The photo must be clear and in good condition and will be returned after publication. If the photo you wish to use is of great sentimental value, we suggest that you have it scanned at high resolution and send the disk to us instead of the actual photograph. Please do not send a photocopy or a word document with the photo embedded. These are not usable.

If a suitable photo cannot be found, the graduate's Howitzer (USMA yearbook) photograph may be used. Digital photos must be high resolution (300 dpi saved as a .jpg). If the Memorial Article submitted is short (500–750 words), additional candid or formal photos reflecting military or similar service or defining interests may be submitted.
