Alphabetical Locator of Graduates and Former Cadets

This locator includes the name of every individual admitted as a cadet to the United States Military Academy, from the establishment of the institution in 1802 to the present time (excepting the undergraduates now at the Academy, and those former cadets who were members of classes not yet graduated).

A name appears in this locator once, showing the individual to be either a graduate or nongraduate. Thus, a graduate who was turned back from an earlier class is not shown as a nongraduate of the earlier class. Similarly, a nongraduate, who belonged at times to different classes, is carried only as a nongraduate of that class with which he or she first entered the Academy.

In this locator, a graduate's name is followed by his or her graduation number and graduation year. The inclusion of the graduation year facilitates the location of graduates in the classes of 1978 and later because the biographies of graduates of these classes are arranged in alphabetical order within Section 3, "The Classes." A nongraduate's name is followed by the small letter "x," together with the numerals that indicate the class with which he or she first entered the Academy.

To find a graduate, look in this locator, note the graduation number, then turn to that number in the *Register.*

To find a nongraduate, look in this locator, note the class with which he or she entered the Academy, then turn to that class in Section 3 of the *Register*. If these individuals are associate members of the Association of Graduates, or if there is significant data concerning them of record in the Association office, their names and biographical data will appear alphabetically arranged with nongraduates of that class. Otherwise, only the names will be listed.
