The Classes, 1802–1931

Graduates in the Classes of 1802–77 are listed by general order of merit.
Graduates in the Classes of 1978–2010 are listed alphabetically.
All extant class crests and mottos are included. Classes without extant crests display the USMA.

Publication of supplements to GEN Cullum's *Biographical Register of the United States Military Academy,* ceased with Volume IX, Supplement 1940–50.

Decennial and Intermediate Editions. Our present annual *Register of Graduates and Former Cadets, USMA,* can be made an acceptable substitute for GEN Cullum's work with your full knowledge and cordial cooperation. Our present plan consists of including ALL classes in each decennial edition, whereas the intermediate editions will omit listing those classes of which all members and former cadets are deceased.

Privacy Act. Each year, we solicit data from each graduate for his or her entry. Remember that we depend on you, the graduate, to provide us current data about yourself. Our access to official sources is limited and has been restricted by the Privacy Act.

Editing Policies Before and After 1960. For classes before 1960, you will find routine assignments for the years 1950–60 eliminated in editions after 1960. Exceptions were made for assignments for which an award or decoration was received and, of course, for assignments that were reported late and not recorded in the years 1950–60. In editions after 1970, we amended the previous policy. Instead, we consolidated assignments where possible and eliminated short assignments to make the entry for each graduate since 1960 a summary of the highlights of his or her career.

It will be necessary to retain for reference only the decennial 1960 edition and the latest edition in order for you to have a complete record of every graduate and former cadet about whom we have significant information. (Of course, for more detailed records of those who graduated before 1951, the appropriate decennial supplement to Cullum's *Register* may have to be consulted).

Name Changes. If a graduate later changes his or her name, the original or maiden name is listed first and the name change is in parentheses.

Admission Figures. The "Admitted as cadets" data found in the heading for each class has been changed to "Dates graduates were admitted as cadets" to more accurately reflect that the numbers shown only pertain to cadets who graduated, not the total number of new cadets who originally entered with the class. The total number of nongraduates in a class has been added under the nongraduate heading for each class.

The "Orioles" CLASS OF 1921

Graduated 13 June 1921

Members of the Class of 13 June 1922, who under the provisions of the Act of Congress of 30 March 1920, *elected to graduate at the end of their third academic year*

Graduates (17) admitted as cadets: 6 on 8 November 1918; 3 on 15 November 1918; and 8 on other dates in November and December, 1918

Due to the shortage of cadet uniforms, the cadets entering in November and December 1918 initially wore Army uniforms with an orange band on their campaign hats, thus the nickname "Orioles." They were scheduled to graduate as the Class of 1922, but seventeen elected to graduate in 1921.
